A300 Outlander Synthetic - Beretta

A300 Outlander: Unmatched Versatility and Value. The A300 Outlander is the latest evolution of Beretta's 300-series gas-operated semiauto shotguns, which have sold by the millions to hunters and sportsmen around the world. And there's a reason for their popularity: unbeatable performance as well as great value out of the box.

A300 Outlander - Beretta

My beretta A300 outlander is not cycling properly. Once fired it ejects the spent shell just fine, when loading another in, it only loads about half way and stops, I have cleaned it consistently and even took it to a gunsmith to clean it... same problem and cannot figure out the culprit.

Shotgunworld.com • Beretta A300 cycling problems

The A300 Outlander Max5 semiautomatic shotgun features a Steelium barrel, a self-cleaning piston and 3" chamber. Read Bruce Pott's review for Gunmart here . The A300 Outlander Silver is the latest evolution of Beretta's 300 series gas operated, semi-automatic shotguns.

GMK - Beretta A300 Outlander

The A300 manual doesn't specify a break-in requirement like some other semi-autos do. However, since you are having cycling problems I'd recommend shooting a box or two of heavier loads (minimum 1 1/8 ounce loads) and single feeding them one shell at a time just like you would in singles trap.

With its 3" chamber, Mobilchoke barrel and self-cleaning piston, the A300 is there to get the job done with Beretta-style quality and reliability. Upland hunters, waterfowlers, and even sporting clay shooters will love what the A300 brings to the table.

Beretta A300 | Available In-Store at DICK'S

I have been looking at the beretta a400 outlander sporting shotguns. I think I like the balance and mechanical feel of the a300 more so than the a400. With that said I am not 100 percent sold on the stock. I wish these shotguns had a palm swell. I am so used to having the palm swell the gun just feels off. Personal preference I guess.
