Mazda Engine Bd 1988

The BD Familia, first shown on 2 June 1980, was entirely new – it was Mazda's first front-engine, front-wheel drive subcompact car, and was available as a hatchback and sedan. It was developed with input from Ford , which in 1979 had acquired a stake in the Japanese manufacturer, and had a twin called the Ford Laser (and Ford Meteor, for its four-door sedan model in Australia).

Mazda Familia - Wikipedia

The Mazda B series is a series of pickup trucks that was manufactured by Mazda. Produced across five generations from 1961 to 2006, the model line began life primarily as a commercial vehicle, slotted above a kei truck in size. Through its production, Mazda used engine displacement to determine
