Tandem Recumbent Bike: These are a few of the bikes I have made in the past. The first one was held together with rivets and then silicone which looked like it was welded. the second and best was the Tandem recumbent bike I built in Mexico in 2003 and the last bike I buil...

### Tandem Recumbent Bike - Instructables

With this step by step plan set, and a little ingenuity (some welding is involved), you can build your own recumbent bike for a fraction of the cost. The plans offer the option of using older bicycles as your parts supply, or all new parts to build your bicycle. Complete with diagrams and measurements to help you build the perfect long ...

Some recumbent tandems can be disassembled and carried as airline luggage. For others some you will need to purchase an optional disassemble-able frame, some will have to stay home when you fly. Taking a tandem on an airline flight may sound like an odd desire, but it makes the neatest trips possible, like a one-way coast to coast tour.

### Recumbent Tandems - Bicycle Man

Build a Long-wheelbase Low Racer Recumbent Bicycle: This instructable details how to construct a fast, inexpensive recumbent bike from one 1980's-era road bike plus some bits off a scrap bike. You should be able to build this for around \$100 less paint. I plan to document how to build the kid's versi...

Tom Porter's Recumbent Bike Homebuilder Plans This series of articles is intended to present a step by step how-to for homebuilding recumbents using text and photos. I will attempt to impart my accumulated wisdom and follies of the last 12 years. I am Tom Porter and I've been touring and racing my own homebuilt designs since 1992.

### Tom Porter's Recumbent Bike Homebuilder Plans

Once we decided to purchase a tandem recumbent, we started doing our homework. Most every review I read picked the Rans Screamer as the best bike available. One review said: "We think the Screamers are the highest performance, best climbing & most stable recumbent tandems we have ridden."As I write this, we have now logged around 10,000 miles on our bike!

A tandem recumbent is a great way to get out on the road with a fellow cycling enthusiast. It's also a great way to introduce someone to the recumbent experience who may not have had a go before. They hop on the front and off you go. The USS setup here is definitely a plus. Just that alone will impress a newbie to recumbents.
